Description

Wall-mounted dispenser for liquid soap or disinfectants with a capacity of 1 liter, made of brushed AISI 304 stainless steel. The simple, minimalist form and matte finish make it fit well with other steel equipment in public bathrooms.

A large tank and simple, manual operation make it a practical choice for**regularly and intensively used sanitary facilities**, where durability and easy everyday use are important.

- **Capacity 1000 ml**– a large tank limits the frequency of refilling the preparation.
- **For liquid soap and disinfectants**– one dispenser can be used for various preparations, depending on the facility's needs.
- **AISI 304 stainless steel**– solid casing suitable for professional sanitary equipment.
- **Matte, brushed finish**– a universal surface that goes well with other elements of the HIT collection.
- **Manual dosing**– ergonomic button ensures simple operation without batteries or electricity.

- **Non-spill valve**– helps reduce product leakage and dirt around the dispenser.
- **Control window**– allows you to quickly check the product level without opening the housing.
- **Filling from a canister**– no need to use dedicated disposable cartridges.
- **Metal lock and key**– secure access to the inside of the dispenser.
- **Wall mounting**– allows you to conveniently place the dispenser directly next to the washbasin or disinfection station.
