Color	White / Gray

Materials

Material	ABS plastic

Mechanism and operation

Dispensing type	Manual
Activation type	Elbow-operated lever
Closing Mechanism	ABS plastic lock

Dimensions and weight

Capacity (ml)	500.0 ml
Height (mm)	280.0
Width (mm)	150.0
Depth (mm)	182.0
Weight (kg)	0,49 kg

Mounting and connections

Mounting method	Wall

Set contents

Installation kit	Yes

Warranty

Warranty (years)	2
Warranty Type	door-to-door

Logistics – unit carton

Carton weight	0.52 kg

Logistics – master carton

Units per master carton	24
Master carton height	540 mm
Master carton depth	490 mm
Master carton width	410 mm
Master carton volume (m^3)	0.108 m^3
Master carton weight	12.6 kg

Description

Faneco MED 500 ml is**wall-mounted elbow dispenser designed for liquid hygiene preparations**. The mechanism can be activated with the elbow, so the user does not have to press the dispenser with his hand. This solution is particularly useful wherever it is important to limit hand contact with common surfaces.

The 500 ml capacity and relatively small housing make the model perfect for workstations where...**there is no need to install a large 1-liter dispenser**.

- **Operation with elbow**– allows you to take the preparation without pressing the dispenser with your hand.
- **Capacity 500 ml**– compact tank suitable for places with moderate use of the preparation.
- **For various liquid preparations**– the model is intended for**liquid soap, disinfectant and liquid balms**.
- **Filling from a canister**– the preparation is refilled directly in the tank, without the need to use dedicated cartridges.
- **Housing and pump made of ABS plastic**– light construction in white and gray colors.
- **Control window**– allows you to quickly check the product level without opening the dispenser.
- **Anti-leak stand**– helps protect the surface under the dispenser against dripping preparation.
- **Closure with a plastic key**– limits access to the interior of the device.
- **Manual construction**– the dispenser does not require batteries or a power connection.
- **Wall mounting**– allows you to place the dispenser directly at the washbasin or hygiene and disinfection station.
