# Faneco Folding Shower Seat with Support Brackets, Ø 25 mm, White, Steel

**Code:** S25KPUPPSWB
**EAN:** 5901764299905

Faneco folding shower seat with brackets, made of carbon steel coated with white epoxy paint. Pipe diameter: 25 mm; steel thickness: 1.5 mm. TIG-welded construction. Maximum load capacity: 150 kg. Equipped with plastic caps for protruding screws. Designed for wall mounting using 12 screws.

## Technical information

### About the product

| | |
|---|---|
| Product type | Seats with support brackets |
| Category | Shower seats |
| Brand | Faneco |
| EAN | 5901764299905 |

### Application

| | |
|---|---|
| Intended use | Showers in bathrooms for people with reduced mobility |

### Features and functions

| | |
|---|---|
| Key features | Folding design<br>Space-saving when folded<br>Sturdy support brackets<br>Secure wall-mounted installation<br>High resistance to damage<br>Maximum load capacity: 150 kg<br>Protected mounting hardware<br>Helps ensure safe and comfortable shower use<br>Designed for people with reduced mobility |
| Foldable | Yes |
| Max. load (kg) | 150 kg |

### Appearance and finish

| | |
|---|---|
| Color | White |
| Coating | Farba epoksydowa |
| Coating thickness (µm) | 100 µm |

### Materials

| | |
|---|---|
| Material | Carbon steel |

| | |
|---|---|
| Steel thickness (mm) | 1,5 |
| Steel Joining Method | TIG welding |

### Dimensions and weight

| | |
|---|---|
| Pipe diameter (mm) | 25 mm |
| Height (mm) | 555 |
| Width (mm) | 475 |
| Depth (mm) | 440 |
| Weight (kg) | 5,5 kg |

### Safety and protection

| | |
|---|---|
| Safety features | Plastic covers for protruding screws |

### Mounting and connections

| | |
|---|---|
| Mounting method | Wall-mounted |
| Number of mounting points | 12 |
| Mounting anchors | Screws: 12 zinc-plated hex-head screws (6 mm × 60 mm)<br>Wall plugs: 12 nylon wall plugs (10 mm × 50 mm) |

### Logistics – unit carton

| | |
|---|---|
| Carton Height (mm) | 220 mm |
| Carton Width (mm) | 470 mm |
| Carton Width (mm) | 460 mm |
| Carton weight | 6 kg |

## Description

### Folding shower seat with supports – safer and more comfortable showering

The Faneco tilting shower seat is designed for **people with limited mobility, seniors, and users who find it difficult to shower while standing**. The stable seat allows the user to sit while showering, increasing comfort and safety.

The structure is **mounted directly to the wall and equipped with additional brackets**; when not in use, the seat can be folded up. This prevents it from taking up unnecessary space in the shower area.

- **Maximum load** capacity of **150 kg** – designed to safely support the user.
- **Fold-away design** —the seat can be folded against the wall when not in use, leaving more space in the shower.
- **Additional supports** —they reinforce the structure and provide stable support when using the seat.
- **Sturdy wall mounting** —the structure is installed using 12 screws and wall anchors.
- **1.5 mm-thick carbon steel** —ensures adequate stiffness and strength of the structure.
- **A 25-mm-diameter tube** —forms a stable support structure for the seat.
- **TIG welding** —steel components are permanently joined to form a single structure.
- **White epoxy coating** – the steel was protected with a 100 µm-thick coating.
- **Caps for protruding screws** – these plastic components protect mounting points and improve user comfort.
- **Dimensions when unfolded: 555 × 475 × 440 mm** – it's a good idea to check the available space in the shower area before installation.
- **Accessible Bathrooms** – the right solution for bathrooms designed for people with disabilities, seniors, and people with limited mobility.

**The fold-out design combines a stable seat with space-saving benefits.** When needed, the seat provides support for the user while bathing, and when folded, it frees up more space in the shower area.
