Features and functions

Additional features	Effectively removes dirt Polishes surfaces Leaves a long-lasting clean finish For all types of steel Suitable for chrome-plated surfaces Fragrance-free

Description

Faneco Cleaner is **a product designed for cleaning and maintaining steel surfaces**; it is particularly useful for the regular upkeep of bathroom and restroom fixtures.

This product helps remove dirt while simultaneously **polishing the surface being cleaned and leaving a wax coating on it**, which helps the steel maintain a clean and attractive appearance for longer.

- **For all types of steel** —a universal cleaner and conditioner for steel surfaces.
- **For chrome-plated surfaces** —it can also be used to clean chrome-finished parts.
- **Removes dirt** —designed for the regular cleaning of steel fixtures.
- **It polishes the surface** —helping to restore its clean and attractive appearance.
- **It contains polishing agents and waxes** —they help maintain the surface and keep it looking clean for longer.
- **Unscented** – this product does not have an added fragrance.
- **300 ml capacity** —a handy size for regular equipment maintenance.
- **For stainless steel fixtures** —a practical cleaning product for dispensers, trash cans, containers, handles, and other stainless steel bathroom fixtures.
- **18 pieces per master carton** —useful information when purchasing for facilities and professional customers.

Regular use of the right product helps maintain the attractive appearance of steel fixtures. Faneco Cleaner combines cleaning with polishing and surface care, making it ideal for the routine maintenance of steel components and chrome-plated surfaces.
