Width (mm)	80.0
Depth (mm)	180.0
Weight (kg)	0.75 kg

Power supply

Power supply	None

Mounting and connections

Mounting method	Undercounter

Warranty

Warranty (years)	2
Warranty Type	door-to-door

Logistics – unit carton

Carton weight	0.8 kg

Logistics – master carton

Units per master carton	24
Master carton height	680.0 mm
Master carton depth	390.0 mm
Master carton width	360.0 mm
Master carton volume (m^3)	0.095
Master carton weight	19.2 kg

Description

Manual foam soap dispenser with a capacity of 1 liter, designed for installation in a washbasin countertop. Most of the device and the tank remain hidden under the countertop, so the polished dispensing head is visible in the washbasin area.

This solution allows you to reduce the number of devices mounted on the wall and create a more organized washbasin zone. The 1000 ml tank is filled directly from the canister.

- **For foam soap**– a model intended for dosing this type of preparation.
- **Undercounter installation**– the mechanism and the tank are located under the surface of the countertop.
- **Capacity 1000 ml**– a large tank limits the frequency of soap refilling.
- **Manual PUSH dosing**– the ergonomic button starts the pump without the need for power.
- **Filling from a canister**– does not require dedicated cartridges.
- **Stainless steel head**– the visible part of the dispenser has a polished finish.
- **Mounting shaft made of ABS**– the element mounted in the countertop is made of plastic.
- **Polyethylene tank**– white soap container placed under the countertop.
- **Thread diameter: Ø 45 mm**.
- **Mounting shaft diameter: Ø 23 mm**.
- **Tank diameter: Ø 55 mm**.
- **Dimensions of the entire dispenser: 450 × 80 × 180 mm**.
