Collection	—
Product type	Soap or liquid dispenser, behind the mirror
Category	Soap and liquid dispensers
Brand	Faneco
EAN	5901764294559

Application

Intended use	For installation behind a mirror

Refills and consumables

Liquid type	Liquid soap, disinfectant
Refill system	From a canister

Features and functions

Drip-free	Yes

Materials

Material	Brushed AISI 304 stainless steel

Mechanism and operation

Dispensing type	Automatic
Activation type	Motion sensor

Dimensions and weight

Capacity (ml)	1000.0 ml
Height (mm)	320.0

Width (mm)	140.0
Depth (mm)	120.0
Weight (kg)	1.52 kg

Power supply

Power supply	230/9V adapter (included)
Voltage (V)	9

Mounting and connections

Mounting method	Behind the mirror

Set contents

Installation kit	Yes

Warranty

Warranty (years)	2
Warranty Type	door-to-door

Logistics – unit carton

Carton Height (mm)	480.0 mm
Carton Width (mm)	260.0 mm
Carton Depth (mm)	150.0 mm
Carton weight	1.92 kg

Logistics – master carton

Units per master carton	4
Master carton height	960.0 mm
Master carton depth	270.0 mm
Master carton width	350.0 mm
Master carton volume (m^3)	0.09 m^3
Master carton weight	8.0 kg

Description

Faneco LAB is **automatic liquid soap or disinfectant dispenser designed for installation behind a mirror**. Hiding the device in the built-in structure allows you to maintain a clean, minimalist washbasin zone and reduce the number of elements mounted directly on the wall.

The motion sensor enables contactless collection of the preparation, and the tank has a large capacity**1000 ml**is filled directly from the canister. The dispenser is made of brushed AISI 304 stainless steel.

- **Behind-the-mirror installation**– the device is designed to be installed behind a mirror, so it remains invisible in the washbasin area.
- **Automatic, non-contact dosing**– the motion sensor starts the administration of the preparation without touching the device.
- **For liquid soap or disinfectant**– one model can be used for various applications.
- **Capacity 1000 ml**– a liter tank limits the frequency of refilling the preparation.
- **Filling from a canister**– does not require the use of dedicated cartridges.
- **Non-spill valve**– limits leakage of the preparation after dosing.
- **AISI 304 stainless steel**– design suitable for professional sanitary equipment.
- **Matte, brushed finish**.
- **Plastic container for the preparation**placed inside the device.
- **230/9 V adapter included**– this is a significant difference compared to many automatic dispensers in which the power supply is optional.
